ROSES, CALIFORNIA GROWN, Own Roots

This lot of roses was grown by Charles Howard, Hemet, California. For years we handled the output of the Chase Rose Co. at Riverside, now out of business. Mr. Howard was Secretary of that corporation and had charge of their propagation. He is now in business for himself and we are selling this surplus stock for him. It is well graded and packed, and will, we believe, give the purchaser the same satisfactory results as did the California stock that we handled previously.

GRADES

No. 1, H. P's and Climbers, graded 24 to 30 inches of wood. Teas, Hybrid Teas, etc., graded 18 to 24 inches of wood. All plants stocky, well rooted, with 3 or more branches.

No. 2, H. P's and Climbers, graded 18 to 24 inches of wood. Teas, Hybrid Teas, etc., graded 12 to 18 inches of wood. All plants stocky, well rooted, with 3 or more branches.

CALIFORNIA PRIVET

GRADES

We grade Privet according to the number of stems the plant carries. All "light" grades carry 2 and 3 stems; "heavy" grades carry 4 and more stems. Transplanting grade includes single stems of all heights and lightly branched plants under 12 inches. Note the special grade of 6 to 12 inch "heavy" offered this season—a well branched stocky little plant. All our privet is beautifully rooted.
